## ***End of FY 13 – DAW Information Summary – Purchasing*** **Details on 3-Step Acquisition Workforce Information Update Process**

---

- Step 1 - because of the timing of submission of data, you can expect the first step information to be provided about 50 days after the close of a quarter. The components are required to provide data to the AT&L DataMart 30 days after the close of a quarter. After DAU IT experts perform a quality control review, this data is then available for initial analysis about 10-15 days later. Our commitment is to get you this updated information no later than day 50 after the end of a quarter.
- Step 2 - includes more extensive demographic information and analysis. This information is not normally available until 60 days after the close of a quarter – the reason – quarterly inputs are sent to the Defense Manpower Data Center (DMDC). DMDC appends key demographic information and then returns the data set to the DAU IT database experts who upload the more comprehensive information into the AT&L Workforce DataMart.
- Step 3 - information, includes comparison of master DoD-wide civilian and military files as part of gain/loss analysis and retirement eligibility projections. At this time, Step 3 is conducted on an annual basis. HCI is working with RAND to move this to a quarterly analysis and tool for you. This improved access to workforce status, trend and planning information will support the Functional Leader and FIPT in their leadership and management role.
